## Forwarding services

---

### Our company will take on the following tasks:

- Preparation and verification of all necessary documentation, including filling out the GTD (goods declaration), DTS, and customs clearance of cargo
- Performing loading and unloading operations, engaging talmans, stevedores, adjusters, surveyors, and other specialists whose services may be required
- Transportation and storage of cargo, including the preparation of all necessary documentation, and the search and acquisition of vehicles for intra-port transportation
- Searching for and attracting vehicles (railcars, cars) to remove goods from the port and transport them to their destination
- Providing consulting services for choosing the optimal route outside the port, legal services for customs clearance of goods, etc.

**Thanks to well-established connections with the CMA CGM shipping line and reliable connections with the VMPT , we carry out sea container cargo transportation from all ports of China to Russia. The company's exports are carried out through the Vostochny port in Nakhodka.**
