Product certification

Product certification may be required for customs clearance of imported goods.

According to the lists established by the state regulatory authorities, goods entering the territory of the Russian Federation must undergo mandatory or voluntary certification, which is necessary for the further free sale of products. Our company's specialists provide assistance in the certification of products, goods, or services in accordance with the standards applicable in the Russian Federation.

Thanks to a comprehensive approach to the product certification process and well-established connections with various testing laboratories and research centers, the following is provided:

- Obtaining a certificate of conformity
- Obtaining a hygienic certificate (sanitary and epidemiological certificate)
- Conducting voluntary certification
- Getting a declaration of conformity
- Getting a fire certificate
- Certification of products according to State Construction standards
- Obtaining an Import Quarantine Permit (IQP)
- Certification of flour, bakery, and pasta products
