Delivery of cargo from China is one of the areas of our company's work. Our logistics specialists will ensure the transportation of any of your cargo from China on a door-to-door basis. This eliminates all the problems of cargo packaging, freight booking, and customs clearance for the customer.

Our staff will create a transportation route using rail, road, and sea transport to ensure that your goods are delivered directly to your warehouse. We have our own representative in Guangzhou, Shanghai, and Hong Kong, allowing us to quickly organize transportation from the entire Asian region.

Since 2010 in the market of international transportation services. We have established relations with major sea carriers. We are engaged in cargo transportation from any country in the world to Russia, and vice versa. We provide a full range **of services –door-to-door cargo** handling. Delivery of the container to the manufacturer, acceptance of the cargo, subject to all necessary formalities, sending the container by rail or by sea to the destination station, and export to the address of the specified consignee.
