from China

A Furniture tour to China is a huge selection of furniture from the manufacturer, a comfortable journey, and an unforgettable time in a unique country – in the south of China, in the city of Guangzhou, where you can significantly save money on furnishing your home, office, or restaurant.
Our company is pleased to invite you to China!

We will organize your trip to China to buy furniture from any city in Russia.

- We will meet you in China
- We will help you choose the products you are interested in
- We will prepare a program for visiting factories
- We will take full responsibility for loading, customs documentation, and cargo delivery to Russia. We will also handle customs clearance in Russia.

We don't sell furniture; we help you buy it in China.

We invite everyone who plans to choose furniture, bathroom fixtures, and building materials for their home, cafe, restaurant, or office to join our specialized shopping tours in China.

- You will visit major trade and industrial centers in China, such as Guangzhou, Shunde, Foshan, and Shenzhen.
- Visit the world's largest furniture and wholesale plumbing and ceramics markets. Thousands of manufacturers in one place
- You can make a comprehensive purchase of all the goods you need

Furniture Tour is a self-guided trip to China for a profitable purchase of furniture, finishing materials, and home accessories.

Why you should buy furniture in China:

1. **A huge selection.** Most European furniture manufacturers have moved their production to China, where you can find products of all categories and tastes from thousands of furniture companies.
2. **High quality.** Most of the furniture in China is produced by European companies, which carefully monitor the quality of their products.
3. **Low prices.** Buying furniture from a manufacturer in China, even taking into account all the costs of delivery and customs clearance, will be much cheaper than in Russia. This is especially advantageous for large-scale purchases, when you need to furnish a house, a large office, or a restaurant.

4. Accompanying you. Our translation guides will help you navigate the hundreds of markets and stores, answer your questions, and convey your ideas to the manufacturer. We will handle all the paperwork.

After placing an order, we will resolve the following issues:

- **Collect** purchases from all factories in your warehouse
- **Check** the compliance of the accepted cargo in terms of quality and quantity (confirm with a photo report)
- **Prepare** the cargo for transportation (packaging)
- **Loading** the cargo into the container (confirm with a photo report)
- **We will issue** export documents
- **We will deliver** the cargo to Russia
- **Organize** customs clearance in Russia

If you are already in Guangzhou, you can contact our representative directly:

**17G, Park Lane Commercial Centre, Kwong Fat Garden, 498 Huanshi East Road
Guangzhou (metro station "ZOO")**

Who is this tour for?

- For those who want to purchase furniture or finishing materials at manufacturer's prices
- For those who want to decorate their home, office, hotel, or restaurant in a single style in one trip
- For those who want to be able to choose any home goods from thousands of manufacturers in person
- For those who want to save money by buying furniture directly from factories

Our company works with both individual and wholesale customers.

For wholesale customers, including stores and salons, we offer services for placing orders at Chinese factories, as well as services for delivering furniture cargo.

What to expect from a furniture tour?

- In China, you will buy the same furniture that is sold in Russia as Italian furniture, as 90% of it is produced in China using European technology and under the supervision of European specialists;
- In China, you can buy furniture that is not imported to Russia;

- The higher your quality and design requirements, the greater the savings you will receive. The larger the size of your purchase, the greater the benefit of the trip due to the reduction of overhead costs;
- The savings, taking into account travel and delivery costs, are more than 50% of the price of similar products in Russia, and for some products, the savings can reach up to 80%, i.e. **you can buy furniture 2 to 5 times cheaper than in Russia.**
